
Ikhwanul Husna

I have skill in Frontend Web Development and make a website interactive to more better user experience.

 Demak, Central Java, Indonesia

Experience

Bootcamp React JS • Edspert.id

Create online course website using React JS and Tailwind CSS. Throughout the program, I honed my skills in building captivating user interfaces and interactive web applications. Through the project, I applied my proficiency in React.js to craft an engaging platform where users can access and enroll in various online courses seamlessly.

Jul - August 2023

(Learn) Web Developer • Dicoding

I gained a solid foundation in web development technologies and practices. I delved into HTML, CSS, JavaScript, and more, mastering the art of creating responsive and visually appealing websites.
